GREENWAYS CONNECT US ALL

Greenways are outdoor spaces connecting people and places. Each greenway is unique, reflecting the character of the communities it connects. Greenways can include trails, conservation projects such as rain gardens and restored prairies, amenities like restrooms and drinking fountains, and connections to businesses, neighborhoods, parks, schools, waterways and transit. There are over 125 miles of greenways throughout St. Louis City, St. Louis County and St. Charles County for you to explore and enjoy.
